Process for Assessing the Data

Annual Assessment Process

1. Data is collected from identified courses.
2. Random samples of collected assignments are scored by two faculty members using prepared scoring rubrics.
3. The assessment coordinator tabulates the scores. Areas where the acceptable performance threshold has not been met are highlighted.
4. The scores are presented to the faculty for assessment.
5. The faculty reviews the assessment results, and makes decisions on how to respond. If an acceptable performance threshold has not been met
 - Gather additional data next year to verify or refute the result.
 - Change something in the curriculum to try to fix the problem.
6. Faculty can respond to assessment results even if the acceptable performance threshold has been met.
7. A summary of the year's assessment activities and faculty decisions will be reported to the Provost's Office in your Department's Annual Assessment Activities report.
