

EELE 250 Parts Kit Summary

(not every part is shown)

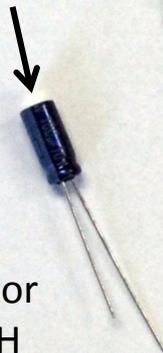

Resistors
5% tolerance
Rated 0.25 watts

Electrolytic
Capacitor
(note polarity
marking!!!)

Inductor
10 mH

Plastic Film
Capacitors
(no polarity)

Bipolar Junction
Transistor (BJT)

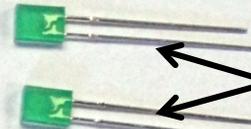

Optical Switch

Integrated Circuits
in Dual In-line Packages
(DIPs)

Light Emitting Diodes
(need a series resistor to
limit current!)

Signal Diode

Power Diodes
